OUR VALUES

Beamy is an intense adventure, full of learnings, challenges and good moments.

Here are our **4 core values**.

Those values represent the way we work, take decisions, move forward and behave with each others. This should provide you guidance in each step you do at Beamy on a regular basis

ONE BEAMY MINDSET & SUPPORT

FULL TRUST & FULL SINCERITY

TRANSFORM OURSELVES & OUR IMPACT

ONE BEAMY MINDSET & SUPPORT

We're in this together — navigating challenges, and supporting each other along the way.

We believe in the power of the collective, where transparency, empathy, and positivity fuel our cross-functional collaboration.

Stay candid, stay approachable, and always offer a hand when needed.

We champion honest conversations and build a culture of trust by design.

We're accountable for every action, owning our successes and mistakes, while fostering a safe space for feedback.

FULL TRUST & FULL SINCERITY

TRANSFORM OURSELVES & OUR IMPACT

We embrace challenges as fuel for growth, pushing ourselves to evolve and expand our influence.

By owning our journey of continuous improvement, we unlock new potential and consistently exceed what we thought possible.

We operate like top athletes — passionate, focused, and always pushing beyond our limits.

We move mountains on a global scale with intelligence, energy, and high standards.

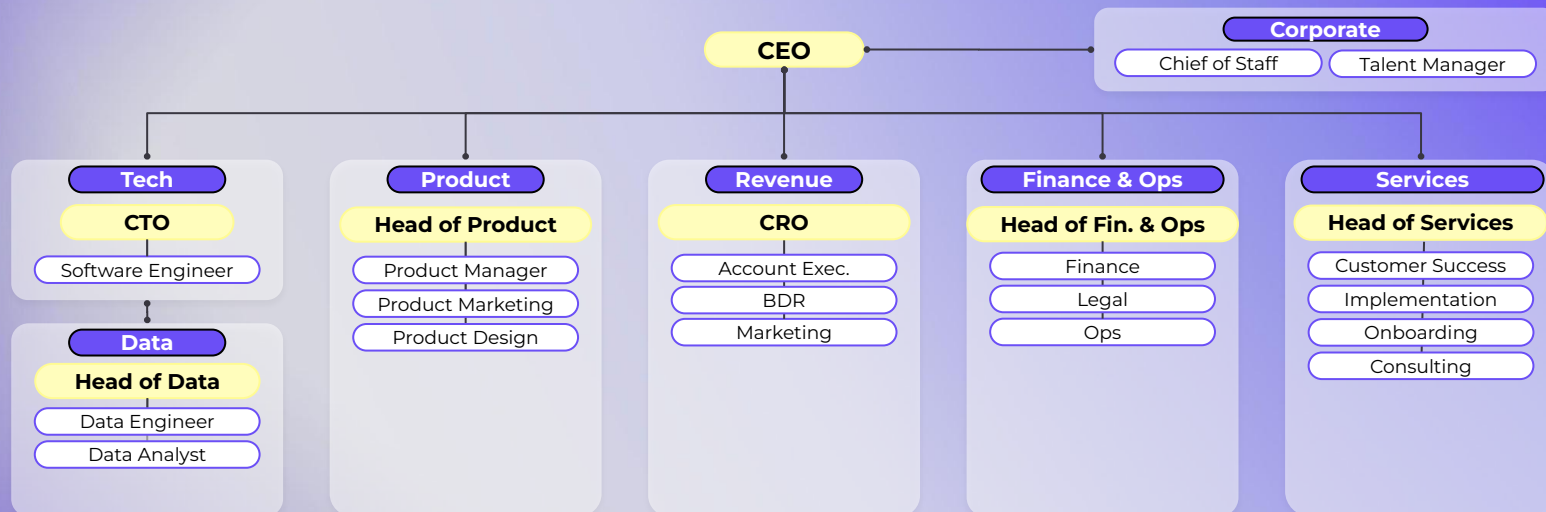

Every effort fuels our mission of building an exceptional product that empowers corporations to embrace the democratization of technology.

OUR SALARY POLICY

We have switched very early to a **100% transparent compensation & benefits policy**, for several reasons:

- Discussions linked to each other's salaries are not healthy and do not correspond to our values
- It allows Beamers to focus on the right things and not being frustrated by any “secrets” around compensation
- This forces us to keep a strong coherence when a candidate try to negotiate beyond our grid

Concretely, Beamers have access to an easy-to-use salary simulator, allowing them to explore potential salaries and career progressions.

Our salaries are rigorously benchmarked against industry standards to ensure competitive and fair compensation.
